## DO YOU KNOW HOW TO SPOT, STOP, AND REPORT A SCAM?

### Phone Scams

People lose a lot of money to phone scams. Scammers have unfortunately figured out numerous ways to cheat you out of your money and sometimes your life savings. They could act friendly or they might threaten you. No matter which road they take, they seem believable and as these scams evolve, they become even more believable to you. One thing is always certain; they are trying to get your money and personal information.

Some things to remember:

1. There is no prize. You know the saying “if it’s too good to be true, it is?” You may get a call that you’ve won the lottery. Remember if you have to pay to get a prize, it’s not a prize.
2. You won’t be arrested. Scammers may pretend to be law enforcement, the IRS or another agency. They may say you owe money, they may say a family member is in trouble. The goal is to scare you into paying them money.
3. There is never a good reason to send cash or pay with a gift card. The minute someone tells you they need you to buy gift cards, you know it’s a scam. This is a method used because there is virtually no way to get your money back.
4. You shouldn’t be getting all those calls. Ever noticed you might receive multiple calls with a similar start number to your own phone number? You may block one and receive another. These are robocalls and likely a scam.

These scammers can spoof a legitimate number. If you have a concern that someone calling you isn’t legitimate, hang up and look up the number (maybe your financial institution) and call them directly to ensure they tried to reach you.
